

GIFTS WITH A STORY

We have been preparing a range of Christmas gifts for you for seven years. Original Fair Trade gifts will make your loved ones, employees, corporate partners, and children in Kenya happy.

We offer gift packages in different values and designs, from the smaller version in a cellophane bag to the larger gift packages in paper boxes with wood wool. The standard package includes fair trade coffee and tea from Kenya imported directly without intermediaries, and a talc product from the Island of Hope production workshop.

What are Fair Trade coffee and tea?

Fair trade coffee is very high quality 100% Arabica. Kenyan coffee is generally considered one of the finest; this has one of the highest possible grades in the Coffee Board of Kenya certification. Fair Trade tea from Kenya is a quality black tea. Thanks to the ideal climate conditions in which it grows, it is generally regarded as one of the finest in the world.

Who makes talc products?

The things are handmade by the Kisi stonemasons from the Tabaka village area, which is the only place in Kenya where a stone called talc is mined. They are purchased directly from their manufacturers and imported directly to our e-shop, i.e., without intermediaries.

Where are the earnings going?

100% of earnings directly support the development of the Island of Hope Community Center on Rusinga Island, Kenya. The Island of Hope Community Center has a nursery, primary school, secondary school, an orphanage, an education center with a library, a farm, and a health center that already cares for more than 500 children in need and 20,000 patients from the Rusinga Island community every day.

Direct import from Kenya without intermediaries

100% of the proceeds will support the children of the Island of Hope Community Center.
